

Wedding Packages 2013

Every wedding is unique and I like to be as flexible as possible when it comes to the coverage of your special day so there are no specific time restrictions on any of my wedding packages.

All Packages are flexible and any extras can be added to tailor a given package to suit your needs.

All delivered images are copyright released for non-commercial use only. This means you are free to give both printed and digital copies to your Family and Friends as you desire without any additional cost.

Most Weddings will have at least 500+ images for you to choose from.

(All sizes referenced below are in Inches)

Please call or email to arrange a no obligation consultation to discuss your special day and what you would like from your Wedding photography.
